

## Washing Up Liquid 1L and 500ml

with Lemon and Aloe Vera

### Personal Benefits:

- fresh perfume from plant based ingredients
- cleans and degreases efficiently
- kind to your skin
- no residue of unnecessary chemicals
- also available as [refill](#)

### Environmental Benefits:

- quick and complete biodegradability (OECD-test 301F, full product)
- minimum impact on aquatic life (OECD-test 201&202, full product)
- against animal testing
- suitable for septic tanks

### Packaging materials

Bottle and labels are made of polyethylene; cap of polypropylene. Polyethylene and polypropylene are 100 % recyclable and can be recycled together using a low energy process.

### Instructions for use

One squeeze is enough for a sink full of normally dirty dishes. Cleans effectively without producing excessive bubbles.
